Several items came up in the Sub-Task Force which I think need your consideration.

1. The student members of this Sub-Task Force will be leaving at the end of Spring Term, or will not be able to participate because of their schedule. Consequently, we would hope that these students would be replaced by administrative appointments, as soon as possible, so that we may continue through the summer.
2. Consideration was given to a questionnaire to be distributed to all black students to evaluate student perception regarding the quality of student life for blacks. What kind of budget would be available to administer and evaluate such a questionnaire? There would be approximately 1200 students involved. Could we get assistance from Institutional Research in the development and evaluation of the questionnaire? I have talked to Dr. Morrow, Chairman of the Student Affairs and Academic Concerns Sub-Task Force, and that group would be interested in surveying the student's opinions, also; thus, we could combine resources and have one comprehensive questionnaire.
